

December 2024 - January 2025

The Label Team is seeking excellent candidates for a prepress work/train program in the flexographic printing industry!

We're looking for dedicated, hard-working team players who excel in digital design to train with our Prepress Manager on how art becomes a label through the process of producing flexo printing plates.

Trainees will work on-site directly with our in-house artist, learning both (a) how to produce/adjust art files suitable for label printing and (b) how to transform those files into printing plates through the operation of various machinery. Our prepress staff also regularly interact with press operators and plant leadership when needed throughout the process of fulfilling orders.

Experience using Adobe Illustrator is a must. Familiarity with Photoshop is a plus.

This is a part-time position (~16 - 24+ hours/week) within our prepress department at The Label Team. Prepress operating hours are Mon-Thurs 6am-4pm, and we can work with the ideal candidate to determine what hours work best within that framework (for example, if a high school student were to participate, they might spend a half-day at school and the other half of the day at The Label Team).

Program participants who express interest and display exceptional performance will be considered for growth to the full-time position of Prepress Technician.

This program is a unique opportunity to take a deep dive into the behind-the-scenes work that goes into making many of the labels we see on products around us every day. Not only will trainees gain knowledge and skills that will equip them for any digital design and/or manufacturing career, they will also play an essential part in creating our products!

Compensation will be proportionate to experience.

Interested candidates should submit their résumés via email to jordan.mcdaniel@thelabelteam.net

We can also be reached via the form at <https://www.thelabelteam.net/contact.php>

or by phone at (330)332-1067.

We look forward to hearing from you!
